

Microsoft Surface Pro 3

## Fenwick Instructional Technology

**F.I.T. – Fenwick Instructional Technology is a 1:1 computer initiative like no other.**

Beginning in the fall of 2016, each freshman and sophomore will receive a Microsoft Surface Pro 3 tablet. These devices will be used to enable the optimized learning Program objectives:

- Provide a superior education which prepares students to excel in college
- Increase student engagement and achievement (ALL reach their full potential)
- Empower students to apply technology for critical thinking and creativity
- Enable education anywhere, not just in the classroom
- Create and nurture a culture where technology-embedded instruction is an integral part of the everyday learning in ALL classrooms

# 1:1 computer initiative

Cloud-connected mobile computing is one of the most powerful technology advances affecting education today. Surface Pro 3 provides a premium education device experience, enabling educators and students to teach and learn the way they want through a versatile device interface, quality digital content, and personalized learning experiences that deliver real outcomes. Anytime, anywhere learning students watch videos on the bus, work remotely with classmates in the evenings, and submit homework assignments electronically. In this new world of anytime, anywhere learning, Surface Pro 3 is mobile, durable, supports on-line and off-line capabilities, and is compatible with Fenwick and home IT environments on campus and off.

## Microsoft Office 365

### Familiar Office experience

All students receive on-line versions of Word, PowerPoint, Excel, and OneNote. Students will be allowed to install the full Office applications on up to 5 PCs or Macs for free.

### Real Time Collaboration

Work with your classmates on-line and see each other's changes in real time with Office Online and OneDrive. No more emailing outdated versions back and forth.

### Optimized Note Taking

Type or handwrite notes, capture webpages, record audio/video, embed spreadsheets, and more with OneNote.

Our faculty are preparing for this initiative and are receiving monthly training in preparation for the upcoming year. The training focuses on learning technology, along with programs that they will incorporate into their curriculum for the enhanced benefit of the student.

## FAQ

### What is the cost of the device?

The device is funded through Auxillary funds and is owned by the school.

### Who will receive the device? \*

Beginning with the 2016-17 school year, the Microsoft Surface Pro 3 devices will be provided to freshmen and sophomore students.

### Are there any fees?

There will be a technology fee to support the infrastructure and for on-site support for using the devices.
