

Service Requirement Amendment for Fall 2020

Due to the COVID-19 pandemic, volunteers are currently unable to serve directly at places like nursing homes, centers for people with disabilities, some hospital and soup kitchen settings, etc. Therefore, GOLD service hours (direct service with vulnerable people) will be extremely difficult to achieve until things open up a bit more. The 10-hour service requirement for the first semester will still be in place, but students may do any type of service to fulfill these requirements. Also, any service work completed over the summer may count towards first semester requirements. Students should enter all completed service information into their x2vol accounts. (Incoming Freshman should make note of any service work completed over the summer. They will be instructed on how to set up their x2vol accounts once school begins in late August.)
